

ENGAGEMENT AND THE POWER OF RELATIONSHIPS

DR. JEAN CLINTON, MD FRP(C)

Clinical Professor McMaster University
Department of Psychiatry and Behavioural
Neurosciences

Dr. Clinton is renowned in her community, provincially, nationally and internationally as an advocate for children's issues. Her special interest lies in brain development and the crucial role relationships and connectedness play in child development. Dr. Clinton champions the development of a national, comprehensive child and youth well-being strategy and is committed to ensuring that children and youth's needs and voices are heard and respected. Dr. Clinton holds a Bachelor of Music Degree in Education and a medical degree and Fellowship in Psychiatry from McMaster University. She is also the very proud mother to 5 great kids who range in age from 20 to 30 years old.

Healthy minds and resiliency in
children and youth, and strategies
for parents and the whole
community
