DECISIONS, DECISIONS

What's happening in our Student Senate?

The SCDSB was blessed to receive 7 applicants for the Student Trustee position from our secondary schools. With the videos and letters, the Student Senate sat down and reviewed all applications. The senate has narrowed down the applications to 3 and soon 1 will be chosen.

Students are looking forward to when the new Student Trustee elect will join in the next month.

You might notice a little more stress in the air when you walk into any of our secondary schools. Grade 12 students within our schools are also anxiously awaiting the results from their university and college applications.

Mental Health Committee

Continuing with the mental health initiative there has been a committee established that brings together students, teachers, principals, and superintendents to help address mental health needs in our schools. The student trustee is included in this worthwhile group.

You can expect to hear a lot more from this wonderful committee within the next couple months.
